Comparative of
Tolerances

*“Essential tool in Quality Control
Laboratories and in researching raw
materials and finished products...”*

- ❑ Quickness in obtaining data and easiness in management
- ❑ Without human mistakes in management of results, traceability according to ISO 9000
- ❑ Statistics: Gauss' Bell, Bar Chart and Tolerance Comparative
- ❑ OPTIONAL statistic tools: SPC (Statistical Control of the Process) and Tendency Chart

Advantages of **MetroTest** Testing Software :

- Easy to learn for users
- Quickness and accuracy
- Reliability
- Designed for Windows® de Microsoft
- Data Export
- Integrating growth in **GESLAB**® systems from Metrotec
- Quick access to the data base and to statistics data.
- Data in Real Time
- Low investment. Quick recovery of investment

Testing Methods

- ✓ Testing mode selection
- ✓ Description of testing parameters
- ✓ Selection of units
- ✓ Modification of existing tests
- ✓ Elimination of old tests

Tests

- ✓ **It only Works AUTOMATICALLY.**
MANUAL data can't be entered through keyboard.
Only possible in GESLAB Systems
- ✓ Test configuration selection
- ✓ Pass/it doesn't pass limits description
- ✓ Curve of different colours for its identification
- ✓ Configuration of the tests samples
- ✓ 4 integrated numerical Displays: Strength, Distortion + 2 auxiliaries
- ✓ Curves in real time during the test
- ✓ Zoom of eligible enlargement
- ✓ Elimination of selected curves
- ✓ List of results
- ✓ Automatic calculation of average and Standard deviation

Statistics Estadísticas

- ✓ Bar chart
- ✓ Tolerante comparative
- ✓ Gauss' bells

General features

- ✓ Microsoft® Access data base
- ✓ Online help
- ✓ Selection of languages: Spanish, French, English and German
- ✓ Protection through user's password
- ✓ Windows Microsoft® operative recommended environment : 2000 – XP and VISTA

Minimum required Hardware

- ✓ PC Compatible with Pentium III Mhz
- ✓ 512 Mb RAM
- ✓ Colour Monitor SVGA 1024 x 768
- ✓ Minimum free room in Hard disk: 200 Mb
- ✓ CD-Rom

SOFTWARE SUMMARY TABLE

SOFTWARE	MetroTEST	GESLAB Integral System	
		PLUS	PRO
General Characteristics			
Multi equipment connexion		✓	✓
Data dimension entrance (caliper....)	✓	✓	✓
Automatic data manual introduction/modification		✓	✓
Additional manual tests		✓	✓
Support for more than one testing machine		✓	✓
Multiple templates	✓	✓	✓
Automatic Entrance of test duplicates	✓	✓	✓
Manual Entrance of test duplicates		✓	✓
